

Dear Prospective Postal Solutions Client:

Suite USA Inc. is the Managing Agent for Campus Lodge Apartments, a 360-unit (1116 – bedroom) community located in Gainesville, Florida. Upon notification of the change in postal delivery to our property by the United States Postal Service (USPS), we determined that our postal service needed to be maintained as if the USPS were continuing typical mail delivery. Recognizing the detailed effort needed, we engaged Postal Solutions as our single point delivery agent for US Mail.

In our opinion, handling the U.S. Mail is a complex procedure, which carries potential liabilities that warrant a focused effort. In that light, we determined that this effort would be better served by a third party professional. Postal Solutions has proven that we made the right choice for our mail management service. Their service has proven to be superior to that of the USPS. Our carrier is consistent, helpful and accessible. Based on a prearranged schedule, Postal Solutions' carrier will come earlier or later depending on our office hours. We do not need to devote space for a mail-sorting center and our office is free from stockpiling incoming residents' packages.

As the President of a regional management company, I know that contracting with Postal Solutions was a prudent and wise choice which has enhanced our overall service to our residents and in turn relieved us of the pressures of handling US Mail. Because of their quality service, we are currently working with Postal Solutions to service additional Campus Lodge properties as they come on-line.

Should you have any further questions, please feel free to contact me.

Sincerely,

A handwritten signature in blue ink that reads "Reno Rubeis".

Reno Rubeis
President
